

1. Installing the Video Camera

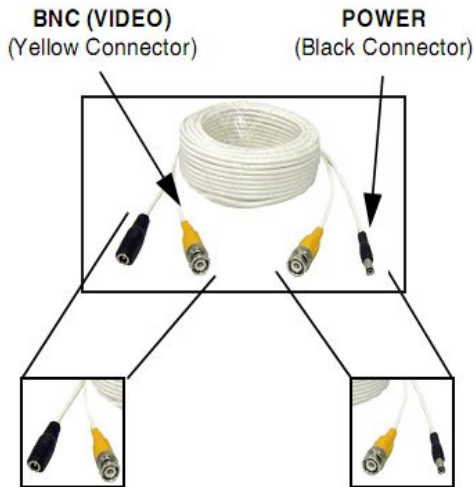

1. Attach the camera to the supplied stand at either of the two connection points.

2. Mount the camera stand to the desired mounting surface

The mounting stand is designed to permanently mount the camera to a surface.

3. Connect the Extension cable to the camera:

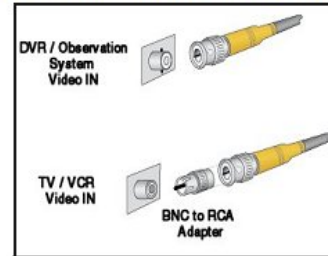

VIDEO INPUT CONNECTIONS:
Connect the BNC cable to the video input of the monitor, and connect the power adaptor to an outlet.

CAMERA CONNECTIONS:
Connect the BNC and Power cables to the Camera

2. Connecting the Camera

4. Connect the BNC end of the Extension Cable to the DVR / Observation System or to a TV/VCR.

Connect the BNC to RCA Adapter as needed to allow for proper connectivity.

5. Connect the A/C Power Adaptor to the Extension cable (Black connector). Plug the Power adaptor to a wall outlet
